Dear Chairwoman \_\_\_\_\_,

I am writing to say THANK YOU. Because of your hard work, Georgia's students will be educated about tobacco and vaping products. We understand that this legislative session was difficult with the recovery from the COVID-19 pandemic. Yet, you continued to ensure that tobacco and vaping education remained a priority and we are grateful for all of your hard work. Due to your efforts, students will learn about tobacco and vaping effects, at a time when the usage of both are on the rise. This is particularly important to ensure that students avoid consumption for the safety of themselves and their families, especially when they become parents. Smoking during pregnancy puts moms and babies at higher risk for medical complications including placental hemorrhage, fetal growth restriction, and preterm birth. Thank you again so much for your work on behalf of Georgia's moms and babies.
